

Introductions – lecture outline

Materials needed:

overhead – introduction questions
one note card for each student

Lecture outline:

1. Put overhead up. As students come in, give them a card and repeat instructions.
2. When students have finished, start introductions. Memorize names of students as you go; encourage students to remember each other's names. Ask students to stay in the same seats for the first two weeks, then be prepared to change. Comment on the importance of choosing a good seat.
3. Introduce myself.
4. Collect cards.
